## TRACK SYSTEMS FOR KUBOTA RTV

### FIND OUT WHAT “ROBUST” REALLY MEANS

Soucy™ made sure to put the most robust system with the best traction on the market. Users will discover a totally new potential in their vehicle, allowing them to overcome the limits that tires have always imposed upon them.

### A UTV YEAR-ROUND

Whether in mud or snow and for any type of work, utility vehicle track systems allow you to go where tires have never been able to tread. They are a true insurance policy in inclement weather.

### FIND WORK FUN AGAIN

Users who equip their UTVs with a Soucy™ track system make their work easier on woodlots or farms – and give themselves the freedom to get to work when they really want to without letting weather conditions dictate their schedules!

### COMPARISON OF THE AVERAGE GROUND PRESSURE OF COMPLETE SYSTEM VS TIRES (ST-110)

#### HARD GROUND CONTACT PATCH

ST-110 track system: 1,650 in<sup>2</sup> (1.06 m<sup>2</sup>)  
Tires: 392 in<sup>2</sup> (0.253 m<sup>2</sup>)

#### HARD GROUND AVERAGE PRESSURE

ST-110 track system: 2.22 psi  
Tires: 9.34 psi

#### DRAWN BY X INCHES CONTACT PATCH

ST-110 track system: 2,335 in<sup>2</sup> (1.51 m<sup>2</sup>)  
Tires: 732 in<sup>2</sup> (0.472 m<sup>2</sup>)

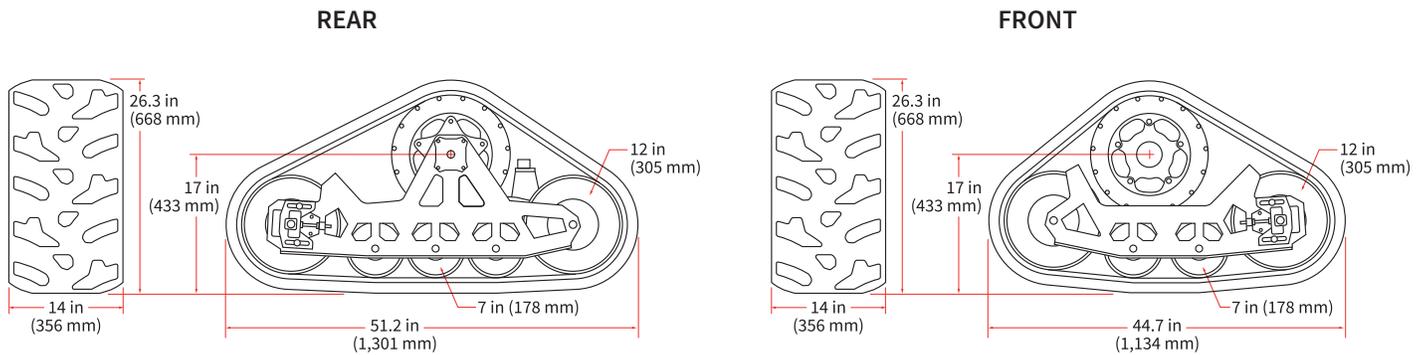

#### DRAWN BY X INCHES AVERAGE GROUND PRESSURE

ST-110 track system: 1.57 psi  
Tires: 5.00 psi

## SPECIFICATIONS

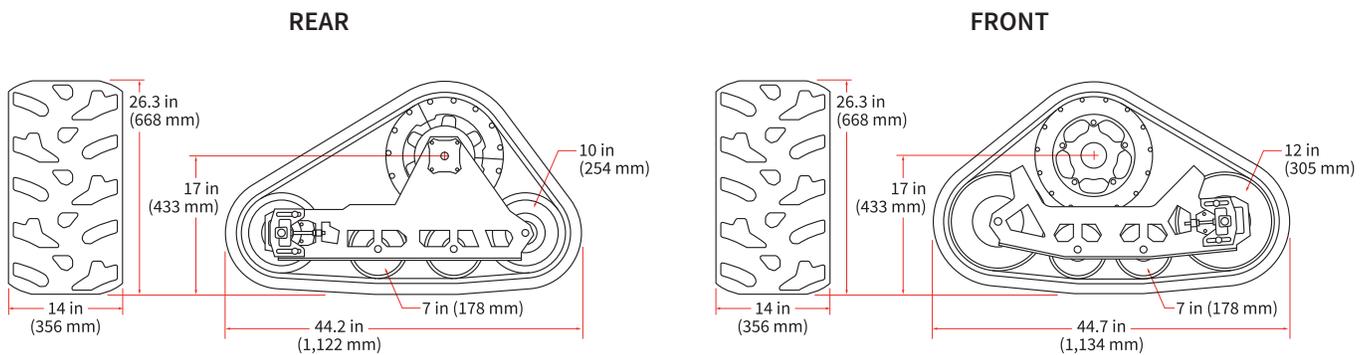

### DIMENSIONS OF THE COMPLETE TRACK KIT.

#### ST-100

TOTAL SYSTEM'S WEIGHT: 924 lb

#### ST-110

TOTAL SYSTEM'S WEIGHT: 924 lb

## SHIPPING SPECIFICATIONS

For a Soucy™ UTV track kit

Quantity: 2 skids (500 lb for each skid)

External dimensions (for each skid): 48 in x 40 in x 33 in

## INSTALLATION

Installation takes approximately 4 man hours to complete.

The track systems do not require any modification to the Kubota, thereby respecting its mechanical integrity.

## LIMITATIONS

Soucy™ track systems do not restrict the speed or gross weight limit of the vehicle indicated in the owner manual.

## MAINTENANCE

TYPE OF MAINTENANCE (for every 100 hours of use)

- Lubrication
- Visual inspection of the track system
- Verification of track tension

## STORAGE

- Remove track tension
- Lubrication
- Cover the track system / Avoid exposure to UV rays

## WARRANTY POLICY

Soucy™ system (excluding the rubber track itself)

ST-100 and ST-110: The warranty period for the track kit is twelve (12) months, starting from the retail sale date.

The prorated warranty for the rubber track is the following:

0-12 months after retail sale date:

100% paid by manufacturer.

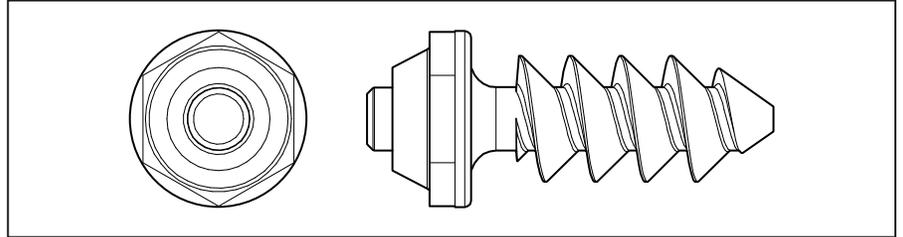

13-24 months after retail sale date:

60% paid by manufacturer, based on suggested price.

## ADD-ONS

Studs can be installed on all UTV track systems.

Soucy™ stud kit with tungsten carbide tip maximise traction of the UTV on slopes and surfaces of hardened snow or ice.

### THE SOUCY GROUP

Founded in 1967, the Soucy group specializes primarily in the design and manufacture of rubber, plastic and metal components for the agricultural, industrial, military and recreational markets. With its 10 divisions and 1,500 employees, the Soucy group aims to be the world leader in terms of rubber track systems, while remaining manufacturing partner of choice of contractors for the design and manufacture of plastic, rubber and metal polyurethane parts.
